

RICOH
Creative
Collaboration
for Personal Meeting

Brainstorm effectively with your team in real-time remotely from anywhere on any device with RICOH Creative Collaboration for Personal Meeting in one shared workspace.

Collaborate

Exchange documents and freely draw and share ideas on a single virtual canvas. Maximise your team's collaboration with the boost in creativity.

◀ From anywhere

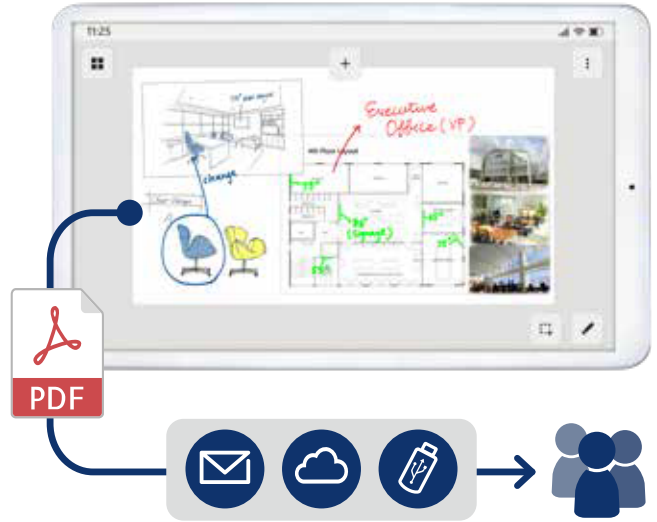

Access the cloud whiteboard from home, office or anywhere in the world and improve teamwork through real-time collaboration.

With any device

Install the "RICOH Board Connect" app to join the cloud whiteboard from any Windows 10, Android or iOS device.

The feature-rich canvas improves remote team collaboration by allowing you to organise documents, capture real-time discussions and instantly share the recap.

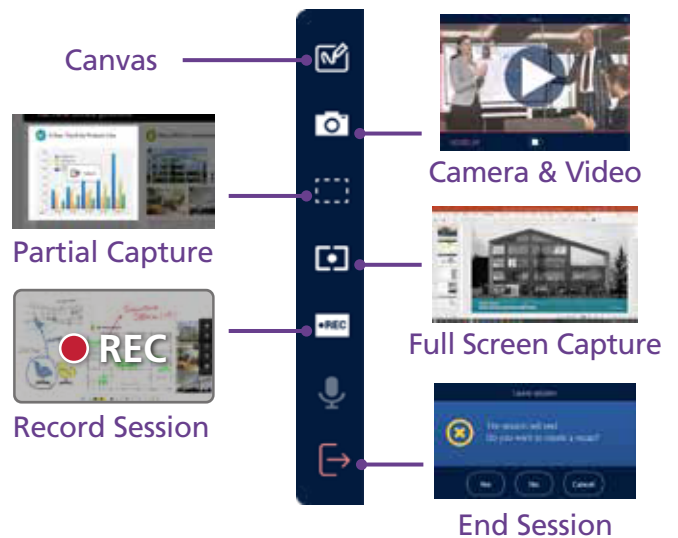

Share any file type

You can present anything on the canvas you need to share, from the traditional presentation deck to spreadsheets, PDFs, videos, web browsers, etc. Once the content is on display, participants can annotate directly to the screen.

Recap & Clean Up

Ending your meetings is a breeze. Use the Recap function to select which page and file to be saved to your device or to the cloud. The Clean Up function helps you delete data and cookies and leaves the whiteboard clean and ready for the next meeting.

Convert your hand-written notes

Need to keep those hand-drawn notes to share but want to present it professionally? Or perhaps you want to draw an object with the help of a list of suggested clipart graphics. The handy self-recognition tools will turn your hand-written words, images and shapes into digital content and typed text.

Capture & record

Share any moment from video, audio or website on the canvas with "Capture" function. Record the entire meeting including conversations to keep track of every discussion.
